

Art/DT

- Sketch a landscape picture of a volcano of your choice.
- Make a 3D model of a planet in our solar system.

Science

- Find out about a famous astronomer (e.g. Galileo).
- Design a new planet. What will it look like? What will it be made from? What will it be called?
- Create a model of a volcano. Use vinegar, bicarbonate of soda and washing up liquid to recreate an eruption.

Home Learning Projects

Geography: How do volcanoes affect the lives of people on Hiemaey?

Science: Earth and Space

You may wish to take the time to complete a project at home this half term. The project should be based around either our current history topic or science topic.

You can bring in completed projects at any point during the half term so that they can be shared with the class.

Here are some possible starting points, or you may have an even better idea for your project!

Do you have your own exciting idea for a project on this term's learning?

Geography

- Draw a diagram of a volcano and label the key parts of it and explain how an eruption occurs.

Maths

- Find out about the distances between Earth and other planets.
- Find out about the size of planets.

English (creative writing)

- Create a fact file about the planet of your choice.
