

Spring 1 2024 – Home Learning Ideas Early Years Foundation Stage **Animals**

You may wish to take the time to complete a project at home this half term. Here are some possible starting points, or you may have an even better idea for a project. Please send the finished project into school or send a picture or video to smorris@arbury.cambs.sch.uk to be shared in class.

Your own idea!
Do you have your own exciting idea for a project? We can't wait to see what you come up with!

Draw a picture of your favourite animal or an animal that you would like to learn more about. You might like to use a 'how to' tutorial online. 'Art for Kids Hub' has lots of useful videos. We would love you to bring in/see a picture of your drawing or watch a video of you telling us how you did your drawing or what you like about the animal.

Find out about an animal that is endangered and learn what that means. You might like to make a poster to put up in your window to tell you neighbours about the animal and what you can do to help. We would love you to bring in/see a picture of your poster or watch a video of you telling us about endangered animals.

Visit the library and use books there to find out about an animal or animal home that particularly interests you. You might want to draw a picture of different animals and write a label or caption. We would love you to bring in/see pictures of your drawing or a video of you talking about animals you have found out about.
