

Wish Upon a Star for Arbury

- 6 sticks about the same size
- Rubber bands
- Ideas to Decorate:
 - Ribbons
 - Paints/pens
 - Fabrics scraps
 - Natural objects
 - Wool

Step 1

Decorate your 6 sticks to make them colourful. You can tie ribbons, wool or fabric scraps. You can even paint or colour them using special pens.

Step 2

Whilst you are decorating your sticks, think carefully about a wish for a Arbury. Would you make a wish for something for nature? Would you make a wish for your friends? Would you make a wish for your family?

Step 3

Use your rubber bands to make a triangle using 3 sticks. Connects the three sticks at the ends to make a triangle.

Step 4

Get your next 3 sticks and make an interconnecting triangle. Take your first stick and make sure it goes in from the front and then crosses behind your first triangle. The second stick should be behind your first triangle. The third stick should be in front of your triangle. Attach them together to make a star. It may need a little wiggling.

Step 5

Look at your star. Does it need any extra decoration? Add it now.

Step 6

Draw or write down your wish for Arbury ready for Hilary to collect.

Top Tips

You can enjoy a walk in nature to collect your natural objects. Be careful though of berries as they can be poisonous. Make sure you give things a shake to let any bugs stay in the wild and wash any leaves etc.
