

How to find daily learning on eSchools

Log in to the child's eSchools page

Click on 'Me' at the top of the page

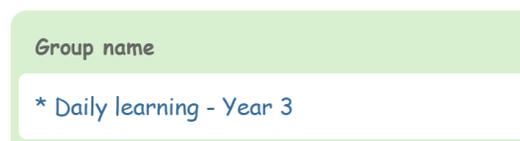

Click on 'My Groups' from the list on the left of the screen

Click on the 'Daily Learning' group, as in this example for Year 3

My Groups

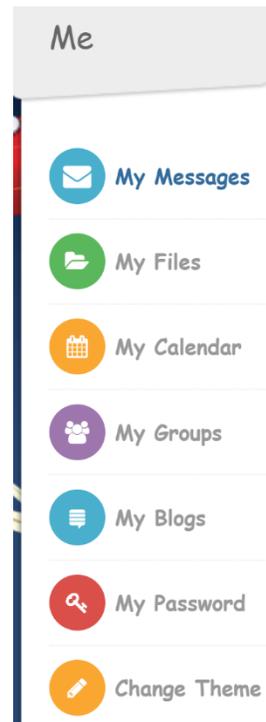

This will then take you to the Year 3 page, where you will be able to find the learning for each day. It will be updated daily, and you will be able to see the learning for previous days in the week, if you want to look at something again. Documents which you might need will be on the page to open or download.

Sending in work to teachers

This can be done using the message function:

Click on 'My messages' and then open a new message

Add the names of the two teachers in the 'To' box. You can attach documents and photos/screenshots using the 'Attach' function. The work can also just be typed into or copied and pasted into the message box. How you send work in can vary according to the technology you have, or the kind of work the child has done. We don't require you to send their work in any specific format.
