They were so small; they looked like five little black dots. Over the weekend they have grown in size and now they look more like caterpillars – have a look at the pictures on our eSchools.</p> <p>For this week’s writing task we would like you to write about the life cycle of a caterpillar. There are two different activities you can choose from. You could choose to write labels or, if you feel like a challenge, you could write four simple sentences about each stage of the life cycle. Use the PowerPoint information to help you.</p>
