

Art/DT

- Make a model of a planet.
- Draw a constellation.

Science - Earth and Space

You may wish to take the time to complete a project at home this half term. The project should be based around our current science topic: 'Earth and Space'.

Once you have completed your project, please do take a photograph and send it to your teacher via Seesaw so that you can share it with the class.

Here are some possible starting points, or you may have an even better idea for your project!

Science

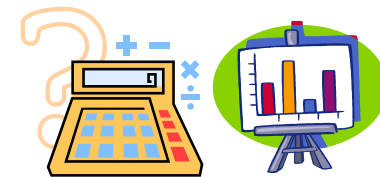

- Find out about a famous astronomer (e.g. Galileo).
- Design a new planet. What will it look like? What will it be made from? What will it be called?

Creative Writing

- Choose a planet and make an information booklet about it.
- Write a postcard from an alien living on another planet.

Maths Investigation

- Find out about the distances between Earth and other planets.
- Find out about the size of planets.
