

Y1 – Spring 2 – 2023

Growing  
Out and About

You may wish to take the time to complete a project at home this half term. Here are some possible starting points, or you may have an even better idea for a project.

Please bring your project to school if you would like to share it with the class.

Creative Art / DT

Make a collage of leaves, petals and natural objects.

Paint a picture of some plants and flowers.

Draw a treasure map or a map from home to your favourite place.

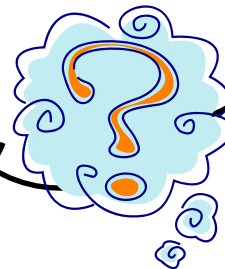

Growing/Out and About

Plant a seed, watch it grow and make a plant diary. You could take a photo of it/draw it each day and see how it changes over time!

Research plant lifecycles in books or on the internet.

Your Own Idea

Do you have your own exciting idea for a project? Feel free to make, draw, write or do something about growing and bring it in to share with the class!

Creative Writing

Write a fact file about your favourite plant.

Imagine you are a seed. Write your journey to becoming a fully-grown plant.

Go to an outdoor space or look out your window and write a poem about the nature you can see.

Maths

Keep practising number bonds to 10 and 20.

Practise counting in 2s, 5s and 10s.

Could you count the plants in an outdoor place?

Could you try weighing fruit and vegetables at the supermarket?

Think about numbers up to 50 and how many tens and ones they have.
