

Spring 2 2022 – Home Learning Ideas Early Years Foundation Stage **‘Space’**

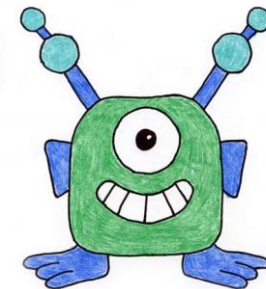

You may wish to take the time to complete a learning idea at home this half term. Here are some possible starting points, or you may have an even better idea for a project. Please send a picture or video of your completed project through Seesaw to be shared in class.

Make a bottle rocket using an old plastic bottle. You might even like to try and make it fly! Send us a picture or video of your rocket on Seesaw.

Design a new planet or make a papier mache planet using a balloon. I wonder what your planet will be like! Send us a picture or video of your planet on Seesaw.

Draw or make an alien. You might like to use playdough or modelling clay. You could draw your alien and maybe even give it a name! Send us a picture or video of your alien on Seesaw.
