

Autumn 2 2021 – Home Learning Projects Early Years Foundation Stage **Celebrations**

You may wish to take the time to complete a project at home this half term. Here are some possible starting points, or you may have an even better idea for a project. Please send a picture or video of your completed project through seesaw to be shared in class.

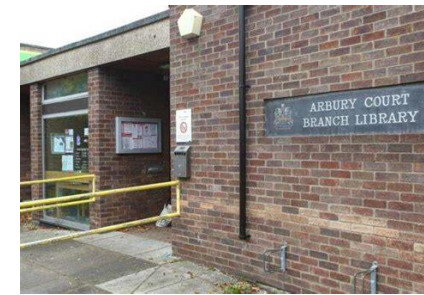

Your own idea!
Do you have your own exciting idea for a project? We can't wait to see what you come up with!

Think together about the food you eat together at your family's celebrations. Can you have a go at making it together? You might want to make a cake, mince pies or other celebration food that is special to you. You might like to send in some pictures for us to see, or a picture or video of you making your celebration food.

Look at different pictures of your family's celebrations. Look back at pictures from when your parents/ grandparents were young. Talk about how people have changed. You might like to send in some pictures for us to see, or a picture or video of you looking at pictures. You might even like to make your own photo album.

Visit the library and use books there to find out about as many different religious and non-religious celebrations as you can, focusing on the similarities or differences between them. You might want to draw a picture of different celebrations. We would love to see pictures of your drawing or a video of you talking about different celebrations.
